

FIREALARM

This house is monitored by fire detectors.

Fire and smoke (caused by candles, cigarettes.....) cause a fire alarm.

The fire brigade comes within some minutes.

If there is a fake alarm (no fire) the brigade charges

€ 500,--

from the person who caused the wrong alarm.

To prevent this, think over your actions

which provokes this (e.g. through stream of boiling water).

Furthermore it is prohibited to hang up clothes in the hallways, because the exit must be kept free for the fire rescue team.
